## This Week

This week during our whole group lesson, we will be discussing the members of our families and how we can order our family members according to a specific attribute. As a group we will also create a class counting book, after reading a counting books about families. In small group we will be creating family drawings, creating a poster with activities we enjoy doing with our family, creating a family book, as well as engaging in a fall tree number matching game.

In Ms. Jessica's class our friends will be reviewing the book, My Name is Sangoel by Karen Williams and Khadra Mohammed. In small groups our friends will discuss similarities between Sangoel's family and their family, as well as making the letters of their name out of foam.

## Upcoming...

Next week we will be making pumpkin slime! In order to make pumpkin slime we will need, Clear Emler's Glue, liquid starch and a small pumpkin. I will be posting sticky notes next to the sign in sheet. Please let me know if you can help! THANK YOU!

Thank you to Mr. McCarrel for coming into our classroom and teaching us about Geology! We had a blast! We are still hoping for more volunteers to teach us about their careers. Please let me know if you have anyone in mind.

### Parent Tip:

If you notice your children struggling to transition from activities such as turning the TV off and getting ready for bed, try warning your child of the transition. Five minutes before you transition let your child know you will be transitioning in five minutes, or set a timer.
