

Weekly News from Miss Aubrey

EMELC: November 26-29

Welcome back to another great week at Emily Meschter Early Learning Center!

This week, students will engage in a variety of activities that revolve around the idea of creating, imagining, and innovating! For literacy this

Kindergarten Preparation

Each month, I will highlight one skill for you and your family to think about or work on at home that promotes kindergarten readiness! :)

Play I-Spy with your child! Have your child find items that explore color identification, shapes, and size!

week, students will explore the story, "Roberto The Insect Architect" by Nina Laden. Our literacy learning center this week will create opportunities for students to picture walk our new story and then students will engage in a small group learning center where they will

Donations

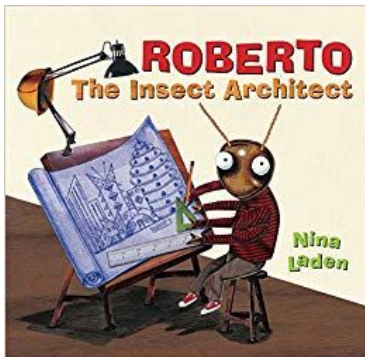

Our classroom is in need of the following items:

Dish Soap

Dry Erase Crayons

create a city or cityscape out of a variety of materials from their homes and classroom, inspired by our new story. Our math lesson this week is the beginning of our new shape study and this week we are exploring the rectangle! Students will learn the "shape song" and create individual and whole group rectangle posters for their classroom!

What are we reading this week?

Important Information:

- ★ **Library:** Every Monday! Please return library books each Monday in order to receive a new book each week!
- ★ **'Emily Meschter Early Learning Center' Facebook Page:** 'Like' for updates, reminders, and fun!

Weekly Parent Tip

This week we are reading the story, "Roberto The Insect Architect"! Find items around your home that you can stack, put together, and build with! Allow for your child to create a city or a building with the items that you find around your home! Take photos so that you can share with Miss Aubrey!

Daily Notes for November 26-29

Unit Focus: Social Studies, "Express Yourself!"

Weekly Learning Goal

1. **Literacy:** Students will increase reading comprehension and fine motor skills by engaging in a small group learning center where they will picture walk the story, "Roberto The Insect Architect" by Nina Laden and create their very own cities using a variety of materials from their homes and classroom.
2. **Math:** Students will increase shape identification and fine motor skills by engaging in a small group learning center where they will explore rectangles and "big lines down" in order to create a shape poster for their classroom and one to take home.
3. **Emergent classroom:** Students will have numerous opportunities for increasing fine motor and STEM skills as they engage with a variety of learning opportunities that focus on building, inventing, and creating with a variety of materials.

"What is my child learning this week?"

- **Monday (Literacy):** In whole group, students will engage in Yoga Therapy! In small group learning centers, students will increase reading comprehension and fine motor skills by engaging in a small group learning center where they will picture walk the story, "Roberto The Insect Architect" by Nina Laden and create their very own cities using a variety of materials from their homes and classroom (day one).
- **Tuesday (Literacy):** In whole group, students will engage in Yoga Therapy! In small group learning centers, students will increase reading comprehension and fine motor skills by engaging in a small group learning center where they will picture walk the story, "Roberto The Insect Architect" by Nina Laden and create their very own cities using a variety of materials from their homes and classroom (day two).
- **Wednesday (STEM/Math):** In whole group, students will engage in Yoga Therapy!
